

## **Kmart Has Announced a Debit/Credit Card Compromise**

There has been a debit/credit card compromise in some of the Kmart stores. Kmart has confirmed that a breach in their system took place during September 3, 2016 to April 30, 2017.

Since this compromise is considerably large, it may take 2 weeks for you to get your replacement card.

In addition, our credit union representatives will be contacting those members affected by this compromise.

We are sorry for your inconvenience.
